

FAMILY PACKAGES

Your investment for years to come with little munchkin and family portraiture.

If you are looking for a stylish and creative photographer, Anne-Marie is the key to making it unique. My goal is to give you a record of the love that envelops the ones that are so close to you, to register the delightfulness of your family relationships.

My style is candid as I take a documentary approach to photography, I will capture the emotion, the pleasures, the details; it will be your story, unique moments of your togetherness.

As an experienced and qualified professional photographer, I will add relaxed natural posing and those all-important family history shots (groups) to ensure comprehensive coverage to please everyone.

The result is a beautiful memento that is artistic and professionally designed so that you never have to worry about capturing moments yourself - enabling you to actually experience them. Below is a list of suggested packages that I provide. Though I can tailor anything to your specific needs or desires, this is a baseline of what I can create for you and your family. .

Anne-Marie can help you to put it all together to suit your needs and expectations.

Options range from simple signed matting that you will frame yourself, to classic gallery style framing, to frameless, mounted laminates for a clean, contemporary look.

All photographs are custom printed, custom cropped, archival prints.

PRINTS
